OUR COLOR SAMPLES

The products featured in our catalog and on our web-sites often times do not represent our finishes very well. This is because studio lighting and effects are used to create a dramatic representation of the product to enhance certain features of a particular design. Although we "list" the actual color that product was finished in at the time, back-lighting, exposure, and the use of photography lighting create shadows and exposures that are not ascertained when products are compared in 'natural' light.

RKB Fiore Tub, Black or RKG Gray

h11" od88" id84"

This RK (Reservoir Kit) consists of one ¼" inch **industrial grade** polyethylene tub (Black or Gray), that with the exception of concrete components placed in its center, does not require the same detail to attention you would give a solid concrete basin of this or a smaller size. **In preparation**, all that is required is a large size stepping stone or paver to support the concrete fountain components placed in the center of the pond.

The tub is solid and grommets for custom holes up to 1¼" inch are available. This solution for an eight-and-a-half foot (six-and-a-quarter feet inside) diameter basin with a height just over a foot (14 inches) **simplifies the installation of large basins** making it cost-effective and efficient, while maintaining the quality and authenticity you expect from Fiore Stone Inc.

This basin is available with a RKG light gray (3210-SG) or RKB black tub (3210-SB) suggested for darker finishes. Black also makes power cords for pumps and optional lights less apparent.

Drawing of model **234-FRB (-FRG)**

See Roma Fountains on page 48

Fiore
Stone, Inc.

Before placing RKB or RKG Fiore Tub and Fountain Components, prepare soft surfaces, like dirt, sand or gravel with stepping stones, pavers or blocks to support components placed in the center.

AG-62 ¾" Uniseal = 1¼" Hole Saw (¾" PVC & AG-26)

AG-63 1¼" Uniseal = 1¾" Hole Saw (1¼" THIN WALL PVC)

Instructions: 1. Cut hole with hole saw to the size indicated. 2. Ensure that the hole is cut clean with sharp edges, irregular holes could cause poor seating and possible leaks. 3. Insert Uniseal with the wide surface facing out. 4. Make certain the pipe to be inserted is cut clean and square. File or sand the edges so there are no rough or sharp edges to cut the Uniseal surface. 5. Use liquid soap or Teflon lube on the pipe to be inserted. Insert the pipe into the Uniseal as far as needed to clear the inside of the seal by about 1" (This takes considerable force). The lubricant will be squeezed off the pipe as it passes through the Uniseal

Treat Water Seriously with Fiore Stone Water Clarifier.

Only a few drops per gallon of Fiore Stone Water Clarifier will prevent most fountain finished discoloration (ie. that "white" calcium buildup) while also maintaining crystal clear water. Fiore Stone Water Clarifier is great at keeping water clear and algae free up-to ambient temperatures of around 90 degrees Fahrenheit. Water Clarifier is available in 8 oz. bottles and requires only two drops per gallon every two to three weeks.

AG-60 Water Clarifier (24 x 8oz. Bottles)

When temperatures exceed 90 degrees or when existing water turns murky, we highly recommend supplementing the water treatment with Fountain Block. When placed near the pump, this tablet will immediately keep water clear for up to 3 to 4 weeks. Both products are eco-friendly and safe for pets and wildlife when used as directed.

FOUNTAIN BLOCK ALGAE CONTROL

- Helps control algae growth and leaves water crystal clear
- Clears cloudy water and removes algae
- One Block maintains 50 or 250 U.S. Gallons for up to 30 days.
- One Fountain Block 6-Pack maintains an average fountain (44 Gallons) for up to 6 months

No minimum, Case pack required

Case Quantity

AG-134 Fountain Block 6-Pack/16 case

© 2023 Fiore Stone, Inc.

Details: Not recommended for use in fountains with live plants. For best results, place Fountain Block in direct circulation where water is active. For regular maintenance, replace block when fully dissolved (usually in 3-4 weeks) or as water begins to appear cloudy and/or green.

Fountain Block is NOT safe for fish and caution should be used with plants in surrounding areas in the event of splash. When diluted and used as directed both products are safe when consumed by pets and birds. Do read all directions carefully.

SHIPPING POLICY

We understand that timely deliveries are important to our dealers so Fiore Stone will use LTL Carriers to ship orders.

Although we can ship most products in a standard pallet-sized box there are a few restrictions so some 'larger' items have additional charges over our Freight Prepaid Costs.

Please consult our price list for item specific details and the column marked [PLT \$] which indicates an additional "pallet" and/or "crate" charge for shipment of these specific items. The charge is related to a part of the item ordered and is considered "per shipment." This means that if two (2) of this specific component are on the shipment (as part of the same item, or a different item) the charge will NOT be double. However, if, the shipment of the order involves a scenario where components cannot be consolidated together and/or exceed what can reasonably be shipped, charges may be added per pallet.

EXAMPLE 1: (1) or (2) 376 Basin 55" (ADD \$150.00 over-size pallet charge)

EXAMPLE 2: (1) 376 Basin 55" and (1) 3124 Quatrefoil Basin both basin's will be packaged on (1) Pallet

EXAMPLE 3: (1) 376 Basin 55" and (2) 3124 Quatrefoil Basins, ADD an additional \$150.00 for (1) 376 Basin.

EXAMPLE 4: (1) 3155 Nerius Wall Basin and (1) 3124 Quatrefoil Basin ADD an additional \$150.00

Fiore Stone Freight does NOT include lift gate service, limited access, re-delivery and other accessorial charges which if they occur may be billed separately. We will contact you if we have any questions about your order.

Fiore Stone, Inc. does not drop-ship to consumers and ships only LTL on terms to stocking dealers. Fiore Stone does not guarantee LTL shipments unless damaged products can be replaced on a future minimum order delivered on our own trucks or LTL. Dealers should arrange their own freight in the event they wish to ship to consumers direct. To ship below our minimum order is a minimum \$275.00 (maximum \$400.00) charge (excluding applicable [PLT \$] charges) to cover the cost difference between our prepaid freight and actual shipping expenses. Email info@fiorestone.com for a quote

Although 3rd party freight is difficult to guarantee, Fiore Stone can offer no-charge replacements of products on a future order provided dealers follow these basic receiving instructions;

TAKE PICTURES OF THE UN-OPENED PACKAGING/SHIPMENT AND ALL FOUR SIDES OF EACH PALLET EVEN IF THE SHIPMENT APPEARS ACCEPTABLE.

MARK ANY NOTICEABLE EXTERIOR DAMAGES ON THE DELIVERY RECEIPT. FOR EXAMPLE, ALL OUR PALLETS LEAVE OUR FACTORY WITH PALLET-CONES. CARDBOARD PYRAMIDS WHICH CAUTION CARRIERS NOT TO STACK FREIGHT ON TOP OF ANY OF OUR PALLETS. SERIOUS HARM CAN OCCUR WHEN THESE CONES ARE IGNORED AND CARRIERS SHOULD BE HELD LIABLE HOWEVER WITHOUT PHOTOGRAPHIC EVIDENCE AND NOTATIONS ON THE DELIVERY RECEIPT THERE IS NO OPPORTUNITY TO CLAIM CONCEALED DAMAGES

PLEASE TAKE DIGITAL PICTURES OF THE SHIPMENT BEFORE REMOVING ANY PACKAGING!

UNDER NO CIRCUMSTANCES REFUSE DELIVERY OF A SHIPMENT!

UNLESS NOTIFIED IN ADVANCE, FIORE STONE DOES NOT ACCOUNT FOR ACCESSORIAL FEES, LIKE LIFTGATE SERVICE, LIMITED ACCESS, REDELIVERY CHARGES WHICH MAY BE BILLED TO THE DEALER IF THEY APPEAR ON THE CARRIERS DELIVERY RECEIPT SIGNED BY THE DEALER AT TIME OF DELIVERY.

Please document any concealed damages by taking pictures of each individual "complete" component and e-mail these to info@fiorestone.com so we can initiate replacements and/or credits.

Please note that it is not unusual for products to experience some rubbing, scratches or other blemishes and each shipment does include touch-up materials to restore the color in the event concrete is exposed. Contact us at the aforementioned e-mail address for assistance anytime!

We really appreciate your business and thank you for your cooperation.

COLOR DISCLAIMER

In accordance with our tradition to create an 'old world' look, each item is finished and antiqued by hand. Because Fiore Stone products are made of all natural materials and finished using old world techniques no two products are ever identical.

Fiore Stone, Inc. therefore cannot guarantee the replication of finishes featured online, in this catalog, on display by the dealer or anywhere else.

During the application of our finishes, coloring materials are absorbed into the surface of the concrete. For example, consideration should be given to product designed with rough surfaces, as they will absorb more stain and/or antique material than products with less detail. Because by design each item is unique, Fiore Stone cannot accept product returns on merchandise not matching colors featured in this dealer catalog, our web-sites, products on display at our dealers or anywhere else including items ordered at different times.
